PROFESSIONAL SUMMARY

Entry-level Software & AI Engineer with hands-on experience building Python, REST APIs, FastAPI, AI/ML solutions at Munshi.AI. Proven foundation in backend API development, data pipelines, and machine learning architectures, seeking to contribute to Whizzbridge's engineering initiatives as a Ai Application Engineer (Agentic Systems) in Lahore, Pakistan.

TECHNICAL SKILLS

Languages & Core: Python

Frameworks & APIs: REST APIs, FastAPI

AI / Machine Learning: AI/ML, RAG, Agentic Systems

Databases & Tools: Git, SQL, PostgreSQL

KEY PROJECTS

AI/ML FYP | ***Python, PyTorch, FastAPI, Git, Machine Learning***

- Implemented baseline agentic models and evaluation benchmarks.
- Engineered REST APIs for model inference and tracking.

PROFESSIONAL EXPERIENCE

AI/ML Engineer - Munshi.AI ***(2025-06 - Present)***

- Built resilient agentic pipelines using Python and FastAPI.
- Designed and consumed high-throughput REST APIs.
- Collaborated on experimental LLM retrieval mechanisms.

EDUCATION

Bachelor of Science in Computer Science - University in Lahore, Lahore, Pakistan
